We provide effective and informative counseling sessions to all students who are interested in studying in our institute. We have English, Chinese and Korean speaking staffs who can provide counseling with both academic and living matters. It is one of the reasons that we have lots of repeaters every year. Also, there are many students who were introduced by friends, teachers, and previous students.

Our students come from different countries so that information gap occurs automatically. We are surprised the culture of different countries, and get to interested in it. We have gradually expended our point of view and knowledge because of the information gap which other Japanese schools could not provide. Besides learning Japanese language in Japan, we will have to experience Japanese culture, get to know Japanese history, and make new friends beyond age, gender, and race.
